AMWAL INTERNATIONAL INVESTMENT COMPANY K.S.C.P. and Subsidiaries

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL INFORMATION (UNAUDITED)

As at 30 June 2019

1 CORPORATE INFORMATION

AMWAL INTERNATIONAL INVESTMENT COMPANY K.S.C.P. (the "Parent Company") is a public shareholding company registered

and incorporated under the laws of the State of Kuwait on 2 August 2005, and listed in Boursa Kuwait. The address of the Parent Company's registered office is P.O. Box 23982, Safat 13100 - State of Kuwait.

The interim condensed consolidated financial information of the Parent Company and its subsidiaries (collectively the "Group") for the six months period ended 30 June 2019 were authorised for issue in accordance with a resolution of the Board of Directors on 29 July 2019.

The principal activities of the Parent Company comprise the following:

1. Owning stocks and shares in Kuwaiti or non-Kuwaiti companies and shares in Kuwaiti or non-Kuwaiti limited liability companies and participating in the establishment of, lending to and managing of these companies and acting as a guarantor for these companies.
2. Lending money to companies in which it owns shares, guaranteeing them with third parties where the holding parent company owns 20% or more of the capital of the borrowing company.
3. Owning industrial equities such as patents, industrial trademarks, royalties, or any other related rights and franchising them to other companies or using them within or outside the state of Kuwait.
4. Owning real estate and moveable properties to conduct its operations within the limits as stipulated by law.
5. Employing excess funds available with the Parent Company by investing them in investment and real estate portfolios managed by specialized companies.

The major shareholder of the Parent Company is Al Futtooh Holding Company K.S.C. (Closed).

2 SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of presentation

The interim condensed consolidated financial information of the Group have been prepared in accordance with International Accounting Standard ("IAS") 34: Interim Financial Reporting.

The accounting policies used in the preparation of the interim condensed consolidated financial information are consistent with those used in the preparation of the annual consolidated financial statements for the year ended 31 December 2018, except for the adoption of IFRS 16: Leases ("IFRS 16"). The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

The interim condensed consolidated financial information does not contain all information and disclosures required for full financial statements prepared in accordance with IFRS and should be read in conjunction with the Group's annual consolidated financial statements for the year ended 31 December 2018.

In the opinion of management, all adjustments consisting of normal recurring accruals considered necessary for a fair presentation have been included. Further, results for the six months period ended 30 June 2019 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2019.

The interim condensed consolidated financial information is presented in Kuwaiti Dinars ("KD") and all values are rounded to the nearest KD thousand except when otherwise indicated.

During the year ended 31 December 2018, the Group carried out Purchase Price Allocation ("PPA") exercise for a business combination and accordingly restated the interim condensed consolidated statement of financial position and the interim condensed consolidated statement of changes in equity for the period ended 30 June 2018. The restatement in accordance with IFRS 3 is to account for increase in the Group's 'Intangible assets' by KD 354 thousand and 'Non-controlling interest' by KD 354 thousand. The restatement did not have any effect on the interim condensed consolidated income statement and the interim condensed consolidated cash flow statement for the period ended 30 June 2018.

Further, certain prior period amounts have been reclassified to conform to the current period presentation. These reclassifications were made in order to more appropriately present certain items of interim condensed consolidated statement of financial position, interim condensed consolidated cash flow statement and interim condensed consolidated income statement. Such reclassifications do not affect previously reported assets, liabilities, equity and profit for the period, nor materially affect the interim condensed consolidated cash flow statement. The reclassifications are not material to the interim condensed consolidated financial information.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL
INFORMATION (UNAUDITED)

2 SIGNIFICANT ACCOUNTING POLICIES (continued)

2.2 NEW STANDARDS, INTERPRETATIONS AND AMENDMENTS ADOPTED BY THE GROUP

IFRS 16 ‘Leases’

IFRS 16 supersedes IAS 17 *Leases*, IFRIC 4 *Determining whether an Arrangement contains a Lease*, SIC-15 *Operating Leases-Incentives* and SIC-27 *Evaluating the Substance of Transactions Involving the Legal Form of a Lease*. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model.

Lessor accounting under IFRS 16 is substantially unchanged under IAS 17. Lessors will continue to classify leases as either operating or finance leases using similar principles as in IAS 17. Therefore, IFRS 16 did not have an impact for leases where the Group is the lessor.

The Group adopted IFRS 16 using the modified retrospective method of adoption with the date of initial application of 1 January 2019. Under this method, the standard is applied retrospectively with the cumulative effect of initially applying the standard recognised at the date of initial application. The Group elected to use the transition practical expedient allowing the standard to be applied only to contracts that were previously identified as leases applying IAS 17 and IFRIC 4 at the date of initial application. The Group also elected to use the recognition exemptions for lease contracts that, at the commencement date, have a lease term of 12 months or less and do not contain a purchase option (‘short-term leases’), and lease contracts for which the underlying asset is of low value (‘low-value assets’).

a) Nature of the effect of adoption of IFRS 16

Before the adoption of IFRS 16, the Group classified each of its leases (as lessee) at the inception date as either a finance lease or an operating lease. A lease was classified as a finance lease if it transferred substantially all of the risks and rewards incidental to ownership of the leased asset to the Group; otherwise it was classified as an operating lease. Finance leases were capitalised at the commencement of the lease at the inception date fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments were apportioned between interest (recognised as finance costs) and reduction of the lease liability. In an operating lease, the leased property was not capitalised, and the lease payments were recognised as rent expense in the statement of income on a straight-line basis over the lease term. Any prepaid rent and accrued rent were recognised under ‘Other current assets’ and ‘Trade and other payables’, respectively.

Upon adoption of IFRS 16, the Group applied a single recognition and measurement approach for all leases that it is the lessee, except for short-term leases and leases of low-value assets. The Group recognised lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets. The Group adopted IFRS 16 using the modified retrospective method and accordingly, the comparative information is not restated with the date of initial application of 1 January 2019.

Leases previously accounted for as operating leases

The Group recognised right-of-use assets and lease liabilities for those leases previously classified as operating leases, except for short-term leases and leases of low-value assets. The right-of-use assets were recognised based on the carrying amount as if the standard had always been applied, apart from the use of incremental borrowing rate at the date of initial application. Lease liabilities were recognised based on the present value of the remaining lease payments, discounted using the incremental borrowing rate at the date of initial application.

The Group also applied the available practical expedients wherein it:

- ▶ Used a single discount rate to a portfolio of leases with reasonably similar characteristics;
- ▶ Relied on its assessment of whether leases are onerous immediately before the date of initial application;
- ▶ Applied the short-term leases exemptions to leases with lease term that ends within 12 months at the date of initial application;
- ▶ Excluded the initial direct costs from the measurement of the right-of-use asset at the date of initial application and;
- ▶ Used hindsight in determining the lease term where the contract contains options to extend or terminate the lease.

2 SIGNIFICANT ACCOUNTING POLICIES (continued)

2.2 NEW STANDARDS, INTERPRETATIONS AND AMENDMENTS ADOPTED BY THE GROUP (continued)

IFRS 16 'Leases' (continued)

a) Nature of the effect of adoption of IFRS 16 (continued)

The effect of adoption of IFRS 16 as at 1 January 2019 (increase/ (decrease)) is as follows:

	<i>KD 000's</i>
Assets	
Right-of-use assets (included under other assets & property plant and equipment)	23,516
	<hr/>
Total assets	23,516
	<hr/>
Liabilities	
Lease liabilities (included under other liabilities)	23,516
	<hr/> <hr/>

b) Summary of new accounting policies

Set out below are the new accounting policies of the Group upon adoption of IFRS 16, which have been applied from the date of initial application:

Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Unless the Group is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognised right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term. Right-of-use assets are subject to impairment.

Lease liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating a lease, if the lease term reflects the Group exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognised as expense in the period on which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the borrowing rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of finance cost and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

2 SIGNIFICANT ACCOUNTING POLICIES (continued)

2.2 NEW STANDARDS, INTERPRETATIONS AND AMENDMENTS ADOPTED BY THE GROUP (continued)

IFRS 16 'Leases' (continued)

b) Summary of new accounting policies (continued)

Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of property and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered of low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

Significant judgement in determining the lease term of contracts with renewal options

The Group determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Group has the option, under some of its leases to lease the assets for additional periods. The Group applies judgement in evaluating whether it is reasonably certain to exercise the option to renew. That is, it considers all relevant factors that create an economic incentive for it to exercise the renewal. After the commencement date, the Group reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise (or not to exercise) the option to renew (e.g., a change in business strategy).

Other amendments to IFRSs which are effective for annual accounting period starting from 1 January 2019 did not have any material impact on the accounting policies, financial position or performance of the Group.

c) Amounts recognised in the interim condensed consolidated statement of financial position and profit or loss

The Group recognised a decrease in rental expense of KD 2,201 thousand and increase in depreciation expense of KD 2,033 thousand for the period ended 30 June 2019.

10 EARNINGS (LOSS) PER SHARE (continued)

Diluted:

Diluted earnings (loss) per share is calculated by dividing the profit (loss) for the period attributable to the equity holders of the Parent Company after interest payment on perpetual capital securities adjusted for the effect of decrease in profit due to exercise of potential ordinary shares of subsidiaries by the weighted average number of ordinary shares outstanding during the period plus the weighted average number of ordinary shares that would be issued on the conversion of all employee's stock options. The Parent Company has outstanding share options, issued under the Employee Stock Options Plan (ESOP), which may have a dilutive effect on earnings.

11 HEDGE OF NET INVESTMENT IN FOREIGN OPERATIONS

The Group designated its investments in foreign operations (i.e. investment in Panther Media Group Limited , United Gulf Holding Company B.S.C., Taka'ud Savings & Pensions Company B.S.C. and Pulsar Knowledge Centre) and EMTN as a hedge of a net investment in foreign operations. EMTN is being used to hedge the Group's exposure to the US\$ foreign exchange risk on these investments. During the period, gains or losses amounting to KD 187 thousand on the retranslation of this borrowing are transferred to interim condensed consolidated statement of comprehensive income to offset any losses on translation of the net investments in the foreign operations. There is no ineffectiveness during the period ended 30 June 2019.

Burgan Bank has entered into a forward foreign exchange contract between Turkish lira (TRY) and United States Dollar (USD), rolled over on a monthly basis, which has been designated as a hedge of the Bank's net investment in its Turkish subsidiary. This transaction has created a net long position in USD. Gains or losses on the retranslation of the aforesaid contracts are transferred to interim condensed consolidated statement of comprehensive income to offset any gains or losses on translation of the net investments in the Turkish subsidiary. No ineffectiveness from hedges of net investments in foreign operations was recognised in profit or loss during the period.

16 FAIR VALUE OF FINANCIAL INSTRUMENTS

Financial instruments comprise of financial assets and financial liabilities.

Fair value of financial instruments are not materially different from their carrying values except for medium term notes whose fair value amounts to KD 620,585 thousand (31 December 2018: KD 655,883 thousand). For financial assets and financial liabilities that are liquid or having a short-term maturity (less than three months) it is assumed that the carrying amounts approximate to their fair value. This assumption is also applied to demand deposits, savings accounts without a specific maturity and variable rate financial instruments.

Fair value of quoted securities is derived from quoted market prices in active markets, if available. For unquoted securities, fair value is estimated using appropriate valuation techniques. Such techniques may include using recent arm's length market transactions; reference to the current fair value of another instrument that is substantially the same; discounted cash flow analysis or other valuation models.

The fair values of the funds that are listed on active markets are determined by reference to their quoted bid prices. The fair values of unlisted funds are based on net asset values which are determined by the fund manager using the quoted market prices of the underlying assets, if available, or other acceptable methods such as a recent price paid by another investor or the market value of a comparable company.

Fair value hierarchy

The Group uses the following hierarchy for determining and disclosing the fair values of financial instruments by valuation technique:

Level 1: quoted (unadjusted) prices in an active market for identical assets and liabilities;

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly; and

Level 3: other techniques which use inputs which have a significant effect on the recorded fair value are not based on observable market data.

The following table shows an analysis of financial instruments recorded at fair value by level of the fair value hierarchy:

17 DISCONTINUED OPERATION

The Group's investment in a media joint venture consists of interest in Panther Media Group Limited ("PMGL") known as "OSN", a jointly controlled entity incorporated in Dubai and registered in the Dubai International Financial Centre, engaged in providing satellite encrypted pay television services across the Middle East and North Africa region.

The Group had accounted for its interest in PMGL using the equity method. On 8 August 2018, the Board of Directors of the Parent Company approved initiating an active plan to divest its entire interest in PMGL. The Group has engaged an international investment banker for this purpose. As a result, the investment in a media joint venture has been classified as "Assets held for sale" in accordance with IFRS 5 - Non-current Assets held for sale and discontinued operations ("IFRS 5") in the interim condensed consolidated statement of financial position for the period ended 30 June 2019.

The business of OSN represented the entirety of the Group's media operating segment in accordance with IFRS 5. The results of PMGL for the period are presented below:
